## FEBRUARY PROGRAM: CUE THE SLIDESHOW!

Wednesday, Feb. 14, 7 pm at St. Luke's Church

It's time again for LPS' award night! But instead of envelopes, year-end winners will be revealed in the annual musical slideshow featuring every winning image from 2023, and the covers of entries in the Book of the Year contest.

Then plaques, mugs, certificates and/or gift cards (depending on what you designated) will be awarded. All winners will be printed in a stand-alone supplement to the March newsletter (along with 2023 points). **Books**

**were returned to entrants last month, but they're requested to bring them to Wednesday's meeting so people can see them.**

Also on the agenda is the annual LPS meeting, in which Board of Directors members will report on the club's various activities and how it's doing financially.

But that's only the centerpiece of a get-together that also will include the annual meeting with Board of Directors reports on the state of the club, and the biannual Board elections. The proposed slate appears on Page 2 next to the current roster, but nominations can be taken from the floor, too, before members vote. If you nominate someone from the floor, you must have that person's permission.

Members last year voted to skip the monthly competition at the year-end meeting so more time can be spent viewing and honoring the winners. Refreshments will be provided, and year-end slide show flash drives can be bought from George Sherrard.

## LPS HISTORY: CARL CORNETT

Carl Cornett demonstrated how he identified and recorded butterfly species for U of L entomologist Charles Covell (Courier-Journal, 8-3-75)

The person most responsible for elevating the Kentucky Society of Natural History's Exhibition of Nature Photography to national renown was **Carl Cornett**, an LPS member from 1948 through at least 1959. That became useful because LPS helped support the KSNH's salon with judges and volunteers for most of its 45-year run, and many LPS members also were KSNH members.

Cornett, though, joined LPS after he had already made his name with KSNH by becoming the chairman of its photography section in the mid-1940s. He became salon chairman in 1946, adding prints to what had been a club Kodachrome slide competition and soliciting entries throughout Kentucky. He was one of the winners that year, for the black-and-

white print, "Robin Refuge," showing a robin's nest on the axle of a farm wagon.

The next year, he took the salon national and received 410 slides (167 accepted) and 58 prints (30 accepted) from 22 states, Canada and Mexico. By 1951, almost every state and nine foreign countries were represented. Cornett stayed in charge of prints well into the 1960s; his wife, Norine, was the slides chair from 1958 through 1964 and the KSNH secretary 1952-64. Cornett, a business personnel director for American Woolens Co. (mid-1930s through 1953) and Reynolds Metals (1953-68), served seven terms as Ohio Falls chapter president and several terms as KSNH state chairman. He had become interested in nature and the environment as a Boy Scout Scoutmaster

## LPS HISTORY: CARL CORNETT

in the 1930s, working his way up to the Scouts' Louisville area director in 1941. He had left school at 14 because he had to work to support his family, but returned to school 12 years later, finishing high school through night classes and then getting a college degree. He then received a master's degree in psychology from the University of Louisville in 1950, at age 48. Upon retirement in 1968, Cornett became a volunteer research assistant to U of L entomologist Charles Covell Jr., helping Covell mount and catalogue specimens twice a week. He also gave talks about

insects to groups of school children, prepared slide shows about insects and dashed around the state, chasing insect specimens in state parks and rural areas.

Cornett always said he believed that education would save the environment from pollution. "Laws never control people," said Cornett, who died in 1982 at age 79 (his wife died in 1978). "Once people become educated about the environment they will respect it."

## MY FAVORITE SHOTS: BYRON BUTLER

The Owls Head Light is an active aid to navigation located at the entrance of Rockland Harbor on western Penobscot Bay in the town of Owls Head (Knox County), Maine.

The Grand Prismatic Spring in Yellowstone National Park is the largest hot spring in the United States, and the third largest in the world.

## MY FAVORITE SHOT: JOHN HULTGREN

Most photographers probably take their photographs of lighthouses during the summer months, but I like the bright colors of some of the Michigan Upper Peninsula lighthouses and I thought photographing them in the snow would be a little more unique. I drove up there in mid-January, hoping to find some snow, and got caught in a lengthy snowstorm with below zero temperatures (but it was worth the trip). This is Marquette (Mich.) Harbor Lighthouse.
